Table Talk

Engaging with the struggles of a changing world through open and honest dialogue.

We live in a challenging and confusing time. Many of us may find ourselves feeling unequipped to understand and engage with the struggles of children, youth, and young adults today. Table Talk is a monthly gathering where, through open and honest dialogue, Scripture, and prayer, we will approach difficult issues facing modern families.

**Our first Table Talk will be February 27
Immediately after the service in the Basement Classroom.**

The Three-Self Patriotic Movement and China Christian Council (TSPM/CCC) together form the only state-recognized Protestant Church. It can legally print and distribute Bibles, and can register and build church buildings. But the government limits its teaching, outreach, and discipleship activity. Since its restoration in 1978, it continues to grow. In the past, the atheist regime imposed some doctrines and practices on the TSPM/CCC that hindered its impact on society. Pray for revival and renewal, and future growth.

The traditional house-church networks formed the core of the Chinese Church for many decades. Preachers travelled far and wide across China. The intense persecution isolated them from the global Church, and forced them to adopt indigenous ways. They focus strongly on prayer, revival, simple living, and on Christ! Most house-church Christians love their country, but their first loyalty is to God. They do not want to register with the government. Their illegal status leads to persecution. The mass migration to the cities will force these networks and churches to adapt. Some rural congregations get left without a leader, and some migrants struggle without a church group in the city. Pray that the strong commitment to God's Word, the power of the Holy Spirit, and the boldness to spread the gospel will all continue to shape this growing, changing movement.

Other smaller, less-organized house-church networks still make up a significant part of the Chinese Church. Many formed through radio broadcasts and related ministries, often among minority groups. More recently, new networks form within the workplace, such as within factories or offices owned or managed by Christians.

The urban professional Church is an important recent development. Many professionals and academics turned to God for the first time, open while students or professors living abroad. They returned to China eager to engage urban society with their new faith! These well-educated believers can influence government, business, media, the legal system, academia, and civil society. They can relate differently to the government than the TSPM/CCC or house-church networks can. Many have strong commitment to social welfare.

When: Mar. 25th 7pm - Mar. 26th 7am

Where: Fireside room OR virtually pray from home

Sign up in the lobby for an hour of time (or contact Brittany Vaughan)

Once you have signed up for a time slot, you will be given a set of countries within the 10/40. This is to pray for the hearts of the people hurting our missionaries and the people that incite violence in the specific countries.

The only way to change people from wanting to hurt people or cause violence is to have God change their hearts.

As you know, we are beginning a renovation and remodel of the front of the sanctuary.

We are self-funding this, meaning we are not taking out a loan.

This is where you come in. We would like your help. If you can help by sharing what God has given you, we will receive a special offering on **March 6th**.

We appreciate all your prayers, involvement in ministry, and support.

Anything over and above your current support is welcome. We recognize that for some, money is already tight. For others, this might be easier. Please give as the Lord leads.
